**Applicant** : ZhongShan E-V Baby Daily Products CO., Ltd.  
**Address** : No.4 Leshan Street, Lehua Road, Xiaolan Town, Zhongshan City,  
Guangdong Province  
**Manufacturer's name** : ZhongShan E-V Baby Daily Products CO., Ltd.  
**Address** : No.4 Leshan Street, Lehua Road, Xiaolan Town, Zhongshan City,  
Guangdong Province

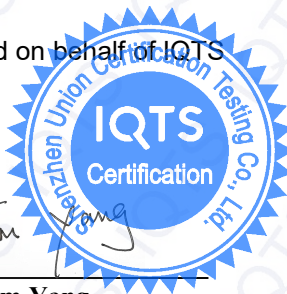

Report on the submitted samples said to be:

**Sample Name** : 4-in-1 Stroller Plus  
**Sample Description** : Stroller  
**Trade Mark** : N/A  
**Model No.** : G308, CS-L-1001, CS-H-1001, CS-B-1001  
**ASIN** : IM3081002, 0D1N235Z4, B0D1N23T57  
**Labeled Age Grading** : 0 - 3 years old  
**Requested Age Grading** : 0 - 3 years old  
**Age Group Applied in Testing** : 0 - 3 years old  
**Testing Period** : January 22, 2024 ~ January 25, 2024  
**Date of issue** : April 30, 2024  
**Results** : Please refer to next page(s).

**A. ASTM F833-21 Standard Consumer Safety Performance Specification for Carriages and Strollers**

| <u>Section</u> | <u>Description</u>                                                                                                                                          | <u>Result</u> |
|----------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|
| 5              | General Requirements                                                                                                                                        |               |
| 5.1            | There shall be no hazardous points or edges as defined by 16 CFR 1500.48 and 16 CFR 1500.49 before and after testing to this consumer safety specification. | Pass          |
| 5.2            | There shall be no small parts as defined by 16 CFR 1501 before testing or liberated as a result of testing to this specification.                           | Pass          |
| 5.3            | The paint and surface-coating on the product shall comply to 16 CFR 1303.                                                                                   | Pass          |
| 5.4            | Prior to testing, any exposed wood parts shall be smooth and free of splinters.                                                                             | Pass          |
| 5.5            | Latching Mechanisms                                                                                                                                         | Pass          |
| 5.6            | Openings                                                                                                                                                    | Pass          |
| 5.7            | Scissoring, Shearing, and Pinching                                                                                                                          | Pass          |
| 5.8            | Exposed Coil Springs                                                                                                                                        | Pass          |
| 5.9            | Labeling                                                                                                                                                    | Pass          |
| 5.10           | Protective Components                                                                                                                                       | Pass          |

## **C. Consumer Product Safety Commission 16 CFR Ch.II Part 1303 – Ban of Lead in paint and similar surface coating**

Test method:

1) Lead in paint and other similar surface coatings: With reference to CPSC-CH-E1003-09.1, sample was digested with acid mixture and analyzed by inductively coupled plasma atomic emission spectrometer (ICP-AES)

Total Lead Content in Paint/Similar Surface Coating Materials

### **Total Lead Content in Paint/Similar Surface Coating Materials.**

| Item              | Unit  | MDL | Results |      | Limit |
|-------------------|-------|-----|---------|------|-------|
|                   |       |     | 1+2*    | 3+4* |       |
| Lead Content (Pb) | mg/kg | 5   | N.D.    | N.D. | 90    |

## **D. US Consumer Products Safety Improvement Act of 2008(H.R. 4040) title 1, section 108 requirement on phthalates content**

Test method: With reference to CPSC-CH-C1001-09.4, by solvent extraction and analysis was performed by gas chromatographic-mass spectrometer (GC-MS).

| Item                                | Unit  | MDL | Results |      | Limit |
|-------------------------------------|-------|-----|---------|------|-------|
|                                     |       |     | 1+2     | 3+4  |       |
| Dibutyl Phthalate (DBP)             | mg/kg | 50  | N.D.    | N.D. | 1000  |
| Benzyl butyl Phthalate (BBP)        | mg/kg | 50  | N.D.    | N.D. | 1000  |
| Bis-(2-ethylhexyl) Phthalate (DEHP) | mg/kg | 50  | N.D.    | N.D. | 1000  |
| Diethylhexyl Phthalate (DNHP)       | mg/kg | 50  | N.D.    | N.D. | 1000  |
| Diisononyl Phthalate (DINP)         | mg/kg | 50  | N.D.    | N.D. | 1000  |
| Dipentyl Phthalate (DPP)            | mg/kg | 50  | N.D.    | N.D. | 1000  |
| Dicycphexyl Phthalate (DCHP)        | mg/kg | 50  | N.D.    | N.D. | 1000  |
| Diisobutyl Phthalate (DIBP)         | mg/kg | 50  | N.D.    | N.D. | 1000  |

Note:

- N.D. = Not Detected or less than MDL
- MDL = Method Detection Limit
- N/A =Not Application
- 0.1% = 1000mg/kg, mg/kg = ppm
- Flow chart appendix is included.
- Photo appendix is included.

| 1110.1  | Purpose and scope                                                                                                                                                                                                                                                                                                                                                                                      |        |
|         | Limits the entities required to provide certificates in accordance with section 14(a) of the Consumer Product Safety Act, as amended (CPSA), 15 U.S.C. 2063(a), to importers and U.S. domestic manufacturers                                                                                                                                                                                           | Pass   |
|         | Specifies the content, form, and availability requirements of the CPSA that must be met for a certificate to satisfy the certificate requirements of section 14(a)                                                                                                                                                                                                                                     | Pass   |
|         | Specifies means by which an electronic certificate shall meet those requirements                                                                                                                                                                                                                                                                                                                       | Pass   |
|         | This part 1110 does not address issues related to type or frequency of testing necessary to satisfy the certification requirements of CPSA section 14(a). It does not address issues related to CPSA section 14(g)(4) concerning advance filing of electronic certificates of compliance with the Commission and/or the Commissioner of Customs.                                                       | Pass   |
| 1110.2  | Definitions.                                                                                                                                                                                                                                                                                                                                                                                           |        |
|         | Electronic certificate means, for purposes of this part 1110, a set of information available in, and accessible by, electronic means that sets forth the information required by CPSA section 14(a) and section 14(g) and that meets the availability requirements of CPSA section 14(g)(3)                                                                                                            | Pass   |
|         | Unless otherwise stated, the definitions of section 3 of the CPSA and additional definitions in the Consumer Product Safety Improvement Act of 2008 (CPSIA), Pub. L. 110-314, apply for purposes of this part 1110.                                                                                                                                                                                    | Pass   |
| 1110.5  | Acceptable certificates.                                                                                                                                                                                                                                                                                                                                                                               |        |
|         | A certificate that is in hard copy or electronic form and complies with all applicable requirements of this part 1110 meets the certificate requirements of section 14 of the CPSA. This does not relieve the importer or domestic manufacturer from the underlying statutory requirements concerning the supporting testing and/or other bases to support certification and issuance of certificates. | Pass   |

## 16 CFR Part 1130 - REQUIREMENTS FOR CONSUMER REGISTRATION OF DURABLE INFANT OR TODDLER PRODUCTS

| <u>Section</u> | <u>Description</u>                                                                                                                                                                                                                                                                                        | <u>Result</u> |
|----------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|
| 1130.3         | <b>General requirements</b>                                                                                                                                                                                                                                                                               |               |
|                | Provide consumers with a postage-paid consumer registration form that meets the requirements of this part 1130 with each such product                                                                                                                                                                     | Pass          |
|                | Maintain a record in accordance with the requirements set forth in § 1130.8 of the contact information (names, addresses, e-mail addresses, and telephone numbers) of consumers who register their products with the manufacturer under this part 1130                                                    | Pass          |
|                | Permanently place the manufacturer name and contact information, model name and number, and the date of manufacture on each durable infant or toddler product in accordance with the requirements set forth in § 1130.4                                                                                   | Pass          |
|                | Consumer information collected by a manufacturer pursuant to the requirements of this part 1130 shall not be used by the manufacturer, nor disseminated by the manufacturer to any other party, for any purpose other than notification to such consumer in the event of a product recall or safety alert | Pass          |
| 1130.4         | <b>Identification on the product.</b>                                                                                                                                                                                                                                                                     |               |
|                | Each durable infant or toddler product shall be permanently marked with the manufacturer name, and contact information (U.S. address and telephone number, toll free if available) model name and number, and date of manufacture                                                                         | Pass          |
|                | If the manufacturer regularly uses only a model name or a model number, but not both, to identify the product, he/she may provide only the model's name or number rather than creating a model name or number for the sole purpose of this part 1130.                                                     | Pass          |
|                | The information required by this section shall be in English, legible, and in a location that is conspicuous to the consumer                                                                                                                                                                              | Pass          |
|                | The information required by this section may be combined with other information marked on the product.                                                                                                                                                                                                    | Pass          |
| 1130.5         | <b>Requirements for registration forms.</b>                                                                                                                                                                                                                                                               |               |
|                | Comply with the format and text requirements set forth in § 1130.6 as shown in figures 1 and 2 of this part;                                                                                                                                                                                              | Pass          |
|                | State all information required by this part 1130 in the English language;                                                                                                                                                                                                                                 | Pass          |
|                | Be attached to the surface of each durable infant or toddler product so that, as a practical matter, the consumer must notice and handle the form after purchasing the product;                                                                                                                           | Pass          |
|                | Include the manufacturer's name, model name and number for the product, and the date of manufacture;                                                                                                                                                                                                      | Pass          |
|                | Include an option for consumers to register through the Internet;                                                                                                                                                                                                                                         | Pass          |
|                | Include the statement required in § 1130.6(c)(1) that information provided by the consumer shall not be used for any purpose other than to facilitate a recall of or safety alert regarding that product.                                                                                                 | Pass          |
| 1130.6         | <b>Requirements for format and text of registration forms.</b>                                                                                                                                                                                                                                            |               |
|                | The form shall be at least the size of two standard post cards, connected with perforation for later separation, so that each of the two portions is at least 3 1/2 inches high x 5 inches wide x 0.007 inches thick.                                                                                     | Pass          |
|                | The form shall consist of four parts: top and bottom, divided by perforations for easy separation, and front and back.                                                                                                                                                                                    | Pass          |

| <u>Section</u> | <u>Description</u>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | <u>Result</u> |
|----------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|
|                | The registration form shall use bold black typeface. The size of the type shall be at least 0.12 in (3.0 mm) for the purpose statement required in paragraph (c)(1) of this section, and no less than 0.10 in (2.5 mm) for the other information in the registration form. The title of the purpose statement and the retention statement required in paragraph (d)(2) of this section shall be in all capitals. All other information shall be in capital and lowercase type.                                                                                                                                                                                                                      | Pass          |
| 1130.7         | Requirements for Web site registration or alternative e-mail registration.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |               |
|                | The manufacturer's Web site, or other Web site established for the purpose of registration under this part 1130, shall be designed with a link clearly identified on the main web page that goes directly to "Product Registration."                                                                                                                                                                                                                                                                                                                                                                                                                                                                | Pass          |
|                | The registration page shall have the following statement at the top of the page: "PRODUCT REGISTRATION FOR SAFETY ALERT OR RECALL ONLY. We will use the information provided on this page only to contact you if there is a safety alert or recall for this product. We will not sell, rent, or share your personal information. If you register on this Web site you do not need to fill out the card that came with your product.                                                                                                                                                                                                                                                                 | Pass          |
|                | The Web site registration page shall request only the consumer's name, address, telephone number, e-mail address, product model name and number, and the date of manufacture. The consumer's telephone number and e-mail address shall not be required for the consumer to submit the registration form. No other information shall appear on the electronic registration form, except for identification of the manufacturer or a link to the manufacturer's home page, a field to confirm submission, and a prompt to indicate any incomplete or invalid fields before submission. Accessing the electronic registration form shall not cause additional screens or electronic banners to appear. | Pass          |
|                | A manufacturer that lacks a Web site shall provide for consumers to register their product through e-mail. Such e-mail addresses shall be set up to provide an automatic reply to confirm receipt of the consumer's registration information.                                                                                                                                                                                                                                                                                                                                                                                                                                                       | Pass          |

## F. CPSIA Section 103 - Tracking Labels for Children's Products

| <u>Description</u>                                                                                                                                                                                                                    | <u>Result</u> |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|
| a) Is the product intended for children under 12 years? If no, the section is not applicable.                                                                                                                                         | Pass          |
| b) Is the product under the exemption of marking on children's product?                                                                                                                                                               | N/A           |
| 1.Product is too small to be marked.                                                                                                                                                                                                  | N/A           |
| 2.Products stay with or be contained in their original packaging.                                                                                                                                                                     | N/A           |
| 3.Product is sold through a bulk vending machine.                                                                                                                                                                                     | N/A           |
| 4.Physical mark would weaken or damage the product or impair its utility.                                                                                                                                                             | N/A           |
| 5.Product surface would be impossible to mark permanently.                                                                                                                                                                            | N/A           |
| 6.Aesthetics of the product would be ruined by a mark.                                                                                                                                                                                | N/A           |
| c) Is the product and packaging or only packaging (for product exempted from the marking) marked below information?                                                                                                                   | Pass          |
| Name of the manufacturer or the name of the private labeler.<br>(Name: ZhongShan E-V Baby Daily Products CO., Ltd.)                                                                                                                   | Pass          |
| Manufacturer or private labeler location, including the name of the country, and the name or other means of coding of city and state.<br>(Location: No.4 Leshan Street, Lehua Road, Xiaolan Town, Zhongshan City, Guangdong Province) | Pass          |
| 3) Date of production of the product, in a form of MM/YY or any other coding system. (Date: December, 2023)                                                                                                                           | Pass          |
| 4) Cohort information (including the batch, run number, or another identifying characteristic). (Model No.: G308, CS-L-1001, CS-H-1001, CS-B-1001)                                                                                    | Pass          |
| d) Is the label permanent after below permanency testing?                                                                                                                                                                             | Pass          |
