

2

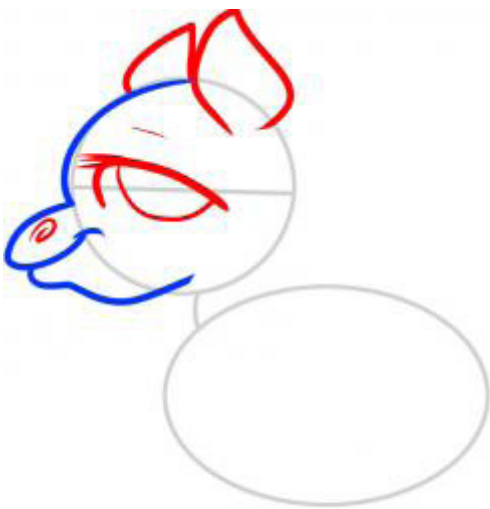

STEP 1.

The first shape you will make is for the head and it should be round. Next, make a neck line and attach it to another circle in the form of an egg.

STEP 2.

begin drawing out the side profile of the camel's face starting with the forehead, and then move along to draw out the snout, mouth, and chin. Be sure to add that smile before you leave this step.

STEP 3.

Draw out the ears, and then draw in the long shaped wide eye, and be sure to darken the the top lash lid line. Add the ends with some lashes and then draw in a spiral swirl for the nose. A dash for the eyebrow should also be drawn in.

STEP 4.

Draw out the back of the neck and then draw the front of the neck and chest. You will end this step by drawing out the two humps and at the top of each hump draw in some loose hair.

STEP 5.

The only thing you have to do here is draw out the two front squared legs, and then draw the belly and part of the hind leg which is the thigh.

STEP 6.

Finish drawing out the back hind legs and then draw in the camel's tail. Notice how the camel looks like it's in a squatting pose.

STEP 7.

For the last step all you need to do is draw in the hoof lines on each foot. When that is done you can begin erasing the lines and shapes you drew in step one.

STEP 8.

Here is what the camel looks like when you are all done. Now you can color in this animal for kids to your liking.
