

Encrypted network traffic

Untrusted certificate

An application on this computer ( Google Chrome) is trying to communicate over a channel encrypted with an **untrusted certificate**.

It cannot be guaranteed that the contacted server (clients2.google.com) is the one it appears to be. This could be an attempt to deceive you or intercept your communication.

Application: C:\Users\1\AppData\Local\Google\Chrome\Application\chrome.exe (PID 19628)

Company: [Google Inc](#)

Reputation:   Discovered 1 month ago

Certificate: clients2.google.com
