

## Lift up your candle

One song can spark a moment  
A flower can wake the dream  
One tree can start a forest  
A bird can herald spring  
One smile begins a friendship  
A kindness lifts a soul  
Just one word, can sometimes frame a goal

One vote can change a nation  
A sunbeam lights a room  
One candle wipes out darkness  
A laugh will conquer gloom  
One step must start each journey  
A word must start each prayer  
Just one touch, can show how much you care

### Chorus:

Lift up your candle, how bright its light will shine  
The fire deep inside you, has power so divine  
The Neshamah is your guide, for the Torah's way that's true  
One lift can make a difference  
It's up to you

Lift up your candle, turn darkness into day  
With just one single mitzvah, a judgment can be swayed  
And touch we know it's hard, we all fall now and then  
Lift up your candle once again

You can be the shining star, that guides a ship at sea  
You can be the only answer to set a person free  
One hope can raise our spirits  
Higher than before  
And then our lives are changed forever...

Can you hear a voice so softly it does sing...?  
But wait! There's so many more, in thunderous ring!
